E-Learning GMP:READY

Various Online Courses

Train yourself and your colleagues in an uncomplicated, high-quality and flexible way!

Advantages for Users

Advantages for your business:

- Time- and place-independent training
- Guaranteed and documented educational success
- Accredited and printable certificates for each employee
- Fast familiarization with the topic within approx. 2 hours
- Training content can be used for 12 months (initial training as well as additional follow-up training possible)
- Automatic updates in the case of legal changes

Advantages for your employees:

- Individual learning pace
- Multimedia learning
- Pick up where you left off without losing any progress
- Experience more enjoyable learning through playful interactions
- Interactive exercises support the knowledge transfer

Certified Data Security

Data protection regulations in accordance with §§ 5, 9, 11 BDSG are available and can be coordinated if required.

Target Group

Specialists working in or looking to work in respective fields:

- GMP:READY – Specialist Knowledge GDP Compact
- GMP:READY – GMP for Engineers Online Course

Technical Requirements

No installation required.

GMP:READY is a browser-based e-learning tool. You can easily access the e-learning online via username and password.

Please note: The login data will be set up for the named person in the delivery address.

The course is displayed in the browser via FIT² Coach.

Support for SCORM: You can also integrate the learning units directly into your company's own Learning Management System (LMS) (SCORM 2004 4th Edition/3rd Edition/2nd Edition, SCORM 1.2).

The following system requirements apply:

Operating systems:

- Windows
- Mac
- Linux

Prices

The **unit** price for each product decreases with higher order quantities.
Please refer to our online shop for the respective unit prices.
