E-Learning GMP:READY

Train yourself and your colleagues in an easy, high-quality and flexible way!

What is GMP:READY?

GMP:READY is a browser-based e-learning tool for GMP and GDP training. It enables flexible, efficient, and location-independent learning for you and your entire team.

Your Benefits

Benefits for your business

- Time- and location-independent training
- Guaranteed and documented educational success
- Accredited and printable certificates for each employee
- Fast familiarisation with the topic within approx. 2 hours
- Training content can be used for 12 months (initial training as well as additional follow-up training possible)
- Automatic updates in the case of legal changes
- Certified data security (data protection regulations in accordance with §§ 5, 9, 11 BDSG are available and can be coordinated if required.)

Benefits for your employees

- Individual learning pace
- Multimedia learning
- Pick up where you left off without losing any progress
- Experience more enjoyable learning through gamified interactions
- Interactive exercises support the knowledge transfer

Target Group

Specialists working in or looking to work in respective fields:

- GMP:READY
  Specialist Knowledge GDP Compact
- GMP:READY
  GMP for Engineers Online Course

Technical Requirements

No installation required.

GMP:READY is a browser-based e-learning tool. You can easily access the e-learning online via username and password.

Please note: The login data will be set up for the named person in the delivery address.

The course is displayed in the browser via FIT² Coach.

Support for SCORM: You can also integrate the learning units directly into your company's own Learning Management System (LMS) (SCORM 2004 4th Edition/3rd Edition/2nd Edition, SCORM 1.2).

Supported operating systems:

- Windows
- Mac
- Linux
